Dark, technologically advanced and sometimes bluesy. Call it Cerebral Funktion... a work in progress

"WE CAN'T PUT OURSELVES INTO ONE BOX, WE CANNOT BE CLASSIFIED, OUR MUSIC GRABS FROM EVERYTHING WE LOVE AND MAKES IT ONE." H. McMinn

THE BEEFEATER PROJECT
LO-FI Resurrection of the American Underground

Consider the Beefeater Project an exclusive club that convenes in a basement somewhere just south of OCU. Dean Avants and J.B.Sullivan are the founding members of this prolific and focused society. Rock'n'Roll, Blues, Country, and Psychedelia come together in a timeless fashion.

"Well you can hear it come crashin
Like a freight train lashin out to
Feel it comin down the line
Its got a backbeat motor
That runs on scotch and soda and
You can get on or get behind"

NIGHT JANITOR
Confectioner's Sugar

The eclectic confections of Night Janitor were crafted in the home studios of Sam Farmer(OKC) and Don Ray Vaughn(NYC). Working together over the miles that separated them, the duo constructed their songs, mixing in supplementary sounds as needed: keys from Detroit, rhymes from Austin, and vocals from Cleveland. The result is a complex union of regional flavors spanning hip-hop, jazz, electronica, latin rhythms, soaring instrumental anthems and sometimes soft lyrics accompanied by sweet pedal steel sounds. There is something here for everyone!

THE BLACK TIE EVENT
Cocktails & Coattails

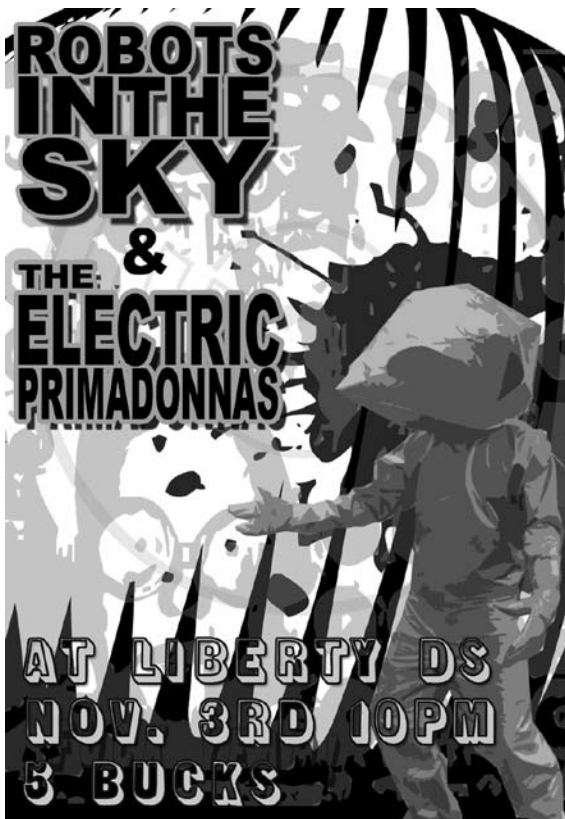

Cocktails and Coattails is a collection of Punk, Garage, and Rock'n'Roll inspired music. Distorted Guitar, Drums, and Bass compose this ensemble. The Black Tie Event emits frantic, energetic, and sometimes mellow vibrations.

A very cool DVD of an animated music video accompanies this album.

As the band puts it... "The Black Tie Event was born out of desire and rage...we take the approach that we can learn something from any kind of music...Listen, Love, Love again, and then dream of us."
